

Accelerating Progress: English

Emphasis in speeches

Name

Challenge ref. 1B5

For each quote, underline the words that you feel need the most emphasis.

For each word that you underline, annotate it to explain how you will add emphasis. This could be through volume, intonation, body language, pace, pausing, direct appeals or any other techniques that you can think of.

“...believe me when I say to you, that this will make things better”

“There are three very clear reasons for this...”

“Not only will we see the benefits of this for others,
but we will also benefit ourselves.”
